

Directions for Use

DEMCO® CircExtender® Laminate
with repositionable
delayed-action adhesive

1. COVERING OF BOOKS

- a. Lay open book on laminate. Cut to size, leaving approximately 1" all around. Remove protective covering by peeling away from split. Lay laminate on flat surface, adhesive side up.
- b. Center spine of book on laminate. Roll book first to one side of the laminate and then the other. Smooth gently to eliminate air bubbles.
- c. Cut away corners of laminate at a 45° angle. Slit laminate near the spine.
- d. Fold laminate inwards to the inside of the covers. Trim off remaining tabs at the spine.

2. COVERING OF FLAT MATERIALS

- a. Lay material to be covered on laminate. Cut to size, leaving approximately 1" all around. Remove protective covering by peeling away from split. Lay laminate on flat surface, adhesive side up.
- b. Position material on laminate. Smooth gently to eliminate air bubbles.
- c. Cut away corners of laminate at a 45° angle.
- d. Fold over excess laminate.
